Continuation of 3. The 35 U.S.C. 112, second paragraph rejection set forth within paragraph 3 of the final Office action.

Continuation of 5. Applicants' 37 CFR 1.132 declarations are insufficient, because the claims of the reference encompass the instant invention. See MPEP 715.01(a) and 716.10. Since the claims of the reference encompass the instantly claimed invention, it has not been established that only the applicants invented the claimed subject matter. It is noted that a double patenting rejection was made in view of the reference and that applicants filed a terminal disclaimer to overcome the rejection on February 21, 2002. With respect to the remaining rejections, they have been maintained for the reasons set forth within the final Office action. Furthermore, it is noted that applicants have failed to respond to the 35 U.S.C. 112, first paragraph rejection set forth within paragraph 2 of the final Office action.
